YUGMA TECHFEST

Yugma Techfest 1.0, organized by the IEEE Computer Society Student Branch of ISE JNNCE, was held from 21st to 23rd August 2025. The three-day event aimed to promote innovation, collaboration, and technical excellence among students through a series of well-structured programs including the forum inauguration, a 24-hour hackathon, and multiple technical competitions. The event began with the formal inauguration of the IEEE Computer Society Forum, which marked a new beginning for student-driven technical activities in the department. It was followed by the hackathon, which witnessed participation from over 100 teams across various colleges, working on real-world problem statements under guided mentorship and evaluation. The final day featured technical events such as coding challenges, design competitions, and innovation-based activities. These events provided students a platform to apply their skills and compete in a healthy and collaborative environment. Overall, Yugma Techfest 1.0 successfully brought together students, mentors, alumni, and industry experts, creating a strong foundation for future technical initiatives under the IEEE banner.
