The strength and scope for improvement areas discussed in the Exit meeting was placed in the IQAC meeting held on 05.11.2019(Agenda Point 4:Quality Initiatives – Impact: NBA Assessment) and following recommendations are made.

Proposal: To take up:

- OBE understanding & Practice in True Spirit
 - ③ Brainstorming Sessions to faculty by experts to be organized
 - ③ Periodical Audit of OBE process
 - Research Time for faculty
 - Separate Project Lab
 - Quality Publications by Faculty / Students
- i. **OBE understanding & Practice:** Principal was of the opinion that many experts had visited the institution and trained the faculty members on OBE. Now, the faculty members should conduct brainstorming sessions and practice OBE. Also, use Automation Software – DHI effectively by using NBA module and NBA coordinators should discuss to finalize the requirements in NBA module. Vice Principal made his remarks that training by experts would be a theoretical input; rather the faculty members of the respective programs should themselves discuss & finalize COs / mapping and practice OBE.
- ii. **Research Time for faculty:** Principal commented that if the faculty members manage the time properly with the present work load, they can pursue research work, only they should work with passion & commitment. Vice Principal opined that if the DHI software is used effectively, faculty could save the time.
- iii. **Project Lab:** Dr. S V Sathyanarayana informed that NBA experts asked for separate Project Lab space as per the NBA guidelines. Principal was of the opinion that the labs which are not used in the respective semester could be used as the Project Lab. Further, he informed that space is available in Library / SAC building, if departments submit the proposal for separate Project Lab with proper justification of usage it would be considered.
- iv. **Quality Publications:** All the members felt that faculty should motivate / guide students to take up quality project work and involve with them, so that the work could be converted to a publication.

Recommendations: Following recommendations were made:

- a) DHI – NBA module should be used effectively. NBA coordinators to meet and decide the requirements in NBA module.
- b) Faculty members to conduct brainstorming sessions to finalise COs – mapping – curriculum gap - innovation in teaching – process of handling weak & bright students and practice OBE in true spirit.
- c) OBE process in the department level should be audited periodically
- d) Departments to submit proposals for separate project lab space with proper justifications of its utilization.

Faculty members to involve and motivate students to take up quality project and generate quality publications.

The Governing Council noted the work.
