Installation of Grid-connected Solar Rooftops/Power system

JNNCE-MCA is committed to its green policy. Currently, the annual electricity consumption of the campus is around 3.84 lakh units per year. In this direction, we have a 400 KW Solar Roof Top system installed and it was commissioned in November 2019. This system would meet about 80% of the total energy requirement of the campus and prevents 800 tons of carbon dioxide from being added to the atmosphere annually.

The student counseling cell is constituted with the intension to provide emotional support to needy students and staff to manage their excel in their life. In the era of competitive world, students of this age are experiencing social, personal and academic problems in their day-to-day life. The growing pressure to excel everywhere may leads to emotional or psychological uncertainty, thus it disturbs one's peace of mind. Following Student Counseling Cell (SCC) is set up to assist students.

Installation of Grid-connected Solar Rooftops/Power system

JNNCE-MCA is committed to its green policy. Currently, the annual electricity consumption of the campus is around 3.84 lakh units per year. In this direction, we have a 400 KW Solar Roof Top system installed and it was commissioned in November 2019. This system would meet about 80% of the total energy requirement of the campus and prevents 800 tons of carbon dioxide from being added to the atmosphere annually.

COLLEGE AUTOMATION SYSTEM

For College Automation, JNNCE-MCA uses an inhouse package called JAMS (JNNCE Automation and Maintenance Services Portal) which helps all stakeholders to get the information and data at the click of a button. JAMS comprises of

- Academics Automation module
- Administration Automation module
- Accreditation Readiness engine (Supports NBA, NAAC, NIRF or other)

For students JAMS helps them get the information about their timetable, IA marks, holidays, remedial classes, facilities and amenities in the campus, events in the campus and so on. It lends the support to the parents to know the details and progress of their wards. It also gives a glimpse of the time table, IA marks and other details essential for the parents and guardians to be aware of on a real time basis.

JAMS is conceptualized and designed around, a future-ready, ever-growing engine that would have limitless ability to adapt. Students and Parents can use this through JAMS App or <http://jams-jnnce.in/> Website by their respective User Id and password provided to them.

Rain Water Harvesting

The rain water from all the buildings in the campus is collected in a huge reservoir constructed inside the campus, which has a capacity of 10 million liters. **The annual collection of water is around 6 million liters.** The water collected in the reservoir is treated using indigenously developed water treatment system and supplied for in house consumption for other than drinking & cooking purposes.
