Online Grievance Redressal Committee

To ensure transparency in all the activities at different stages, College provides proper mechanism for redressal of their grievances. This committee will deal with all the Grievances directly which is related to the common problems at Institute level both Academic and Administrative. The aggrieved member shall submit his/her petition in online system which available in college website or written petition to the Grievance Redressal Committee in a sealed envelope marked 'confidential'. On receipt of a petition the Grievance Redressal Committee will endeavor to send its recommendation to the Principal for further action. In case of false and frivolous complaint (if proved), the Grievance Redressal Committee will recommend Principal/ Disciplinary Authority to take appropriate action against the complainant. Complaints dropped in the 'Suggestion Box' by students and parents are redressed. All complaints are scrutinized by the management and the grievance redressal cell.

xvii. Teaching Learning Process – **Yes**

1. I year students have subjects like Physics, Chemistry, Mathematics and Interdisciplinary subjects from all branches. The performance of the students is analyzed during the middle of the semester and tutorial classes are conducted for slow learners. Remedial classes are conducted for the students failed in the university examinations.
2. Diploma students are admitted to 3rd semester through lateral entry. As their Mathematical background is limited, they have to take additional course in Mathematics. Tutorial classes are arranged for 3rd and 4th semester lateral entry students as well as slow learners in the subjects in which the students face difficulty.
3. To improve the communication skills and aptitude training courses on personality development are conducted exclusively for 1st year students and final year students.
4. For 2nd and 3rd year students one afternoon session per week is exclusively allotted for the soft skill classes. The activities would be conducted by the in-house faculty and outside agency.
5. Each branch conduct technical activities like workshops, lectures, technical competitions to enhance the technical knowledge.
6. In case of MBA, bridge course of one week duration is arranged in which eminent faculty members from various fields like economics, commerce, management, basic mathematics etc. are invited to deliver lectures.

The above steps instill confidence in students and help to change over from +2 levels to engineering course smoothly, and, at higher semester level it helps the students to change over to respective branch from first year basic engineering.

How is Learning Made 'Student-centric'?

The academic aspect is made student centric by

Out-come based education is initiated in the institution which involves active participation of faculty and students. Programme Education Objectives and Programme Out-comes are clearly indicated to students.

Faculty members are motivated to develop skills by using NPTEL course materials.

JNNCE is recognized as a Remote centre to conduct faculty development programme under NMEICT programmes of IIT Bombay and IIT Khargpur .Under this need-based online FDPs are conducted every year in which faulty members participate.

Motivating all the students to actively involved in both academic, co-curricular and extra-curricular activities

In the lower semesters students are encouraged to do mini projects and at the higher semesters industry oriented or social relevance projects which enhances the analytical skill of the students.

The institute provides financial assistance for all activities such as innovation and research projects through funding agencies like KSCST/ ITBT centre and every year a project exhibition of all departments is arranged for students, staff and the public which will encourage the students to do more such projects.
