Your comments and suggestions for improvement :

Thank you for the hospitality, you provided us.
 Please make sure that ^{the} students have knowledge
 about what job they are applying into, and
 ask them to do some research work on that.

Over opinion about college	5	

Your comments and suggestions for improvement :

1. Students resumes were not upto mark and many of them not highlighted their strengths like technical skills
2. Communication skills is very poor and few even didn't open up for more than 3 minutes. After repeated queries they were started talking
3. Basics of the subjects is very poor like for ECE, CSE, ISE, TCE students. They were not able to answer the simple questions. Tata Elxsi is the embedded company, expects strong knowledge in electronics, data structures , practical skill sin embedded C, script language like Python
4. Many of the students in ECE worked on old processors, we expect them worked latest processors
5. Few of the CSE/ISE students are ok in programming, but lack practical implementation skills
6. Most of the students not knowing anything about our company
7. College should conduct Mock interviews, GD from seniors, Alumni and prepare them to face core companies
8. Focus should also be given to expose the students for latest technological trends and hands on experience
9. Students should be identified while in 3rd year, train them in basics, practical skills, guide them to prepare for facing interviews in core companies
