Report on

One Week State Level Student development program on “Building Smart Things by Leveraging IoT Technology using NodeMCU and Raspberry Pi” in association with IETE from 28/01/2019 to 01/02/2019

One week Student development program on “Building Smart Things by Leveraging IoT Technology using NodeMCU and Raspberry Pi” was held at JNNCE from 28th January to 1st February 2019. The SDP aimed to provide opportunities to students on enhancing their skills in the area of Internet of Things. The SDP was attended by 40 participants from Engineering Colleges including 11 participants from outside. The organizing chair was Dr. Manjunatha P, HOD, of Dept. of ECE and the event was coordinated Abhijith N, Pradeepa S C and Shwetha H R Asst.Professor, Department of ECE along with Student Co-coordinators.

The esteemed personalities present on the inauguration of the program on 28/01/2019 were,

1. Sri A T Kishore, Senior Member IEEE, CEO Vidya Sangha Bangalore.
2. Sri A S Vishwanatha, President NES.
3. Dr. H R Mahadevasamy Principal, JNNCE
4. Dr. L K Sreepathi, Vice principal JNNCE
5. Dr. Manjunatha P, HOD, of Dept. of ECE

The Chief Guest Sri A T Kishore in inauguration speech pointed out that the technology is expanding rapidly and students with Faculty members need to adapt to the new challenges in this regard.

Technical Sessions

1st Day (28/01/2019)

Dr. Manjunatha P, HOD, of Dept. of ECE took the first session and gave an insight regarding Basics of NodeMCU and its applications followed by hands on session by Mr. Benak Patel M P Asst.Professor, Dept. of TCE, JNNCE Shimoga. The final session was handled by Mr. Chethan KR, Asst.Professor, Dept. of CSE, JNNCE on Linux OS and Its Commands.

2nd Day (29/01/2019)

Mr. Benak Patel M P Asst.Professor, Dept. of TCE, JNNCE, continued with hands-on session on NodeMCU, followed by NodeMCU and Raspberry Pi by Mr. Raghudathesh G P and Raviteja B, Asst.Professors, Dept. of ECE, GMIT Davangere discussed about configuration NODEMCU (posting update: E-mail, twitter, facebook). Blynk mobile IoT, implementation of IoT protocol MQTT on NodeMCU. Accessing electrical appliances from a remote website connected to

NodeMCU hosting and accessing a professional website on NodeMCU, Uploading multiple analog sensor values to adafruit cloud service from NodeMCU.

3rd Day (30/01/2019)

Started by Mr. Raghudathesh G P and Raviteja B, Asst.Professor, Dept. of ECE, GMIT Davangere discussed about Introduction to Raspberry pi and Python Scripting Language followed by post lunch session on Interfacing sensors and Actuators.

4th Day (31/01/2019)

Started by Mr.Raghudattesh on interfacing sensors, Actuators with Raspberry pi. Post lunch session was on Building Amazon Alexa on Raspberry pi, Agrisense using R-Pi and Mosquitto Cloud service.

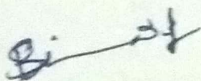

5th Day (01/02/2019)

Mr. Shreepathy H V, Asst. Prof, Department of Embedded Systems, SOIS Manipal was the resource person for the final day, discussed about private cloud installation and configuration, Introduction to open stack private cloud, set up of private cloud, creating projects, security groups, features of open stack, Demo on IoT and Analytics platform followed by connected devices to IoT.

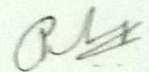

Post lunch session had Hackathon on IoT, where participants build their own miniprojects on the knowledge that they gained during the workshop.

The Valedictory session

The honorable personalities present on this occasion were Sri. S N Nagaraja, Secretary NES, Shivamogga, Dr. H R Mahadevasamy Principal, JNNCE, Dr. L K Sreepathi, Vice principal JNNCE, Dr. Manjunatha P, HOD, Dept. of ECE.

About the College:
JNNCE was established in the year 1980 by the National Education Society. The college is affiliated to Visvesvaraya Technological University (VTU), Belgaum and recognized by AICTE, New Delhi. It offers 7 UG and 7 M.Tech Program besides MBA and MCA. It has 7 Research centers recognized by VTU. Spread over 38 acres, the campus has all the amenities to cater to the needs of about 3500 students and 400 faculty and staff. The college is regarded as one of the excellent centers for technical education and research. J. N. N. C. E is ranked 47th among top 75 engineering colleges in India and 8th in Karnataka as per OUT Look -MDRA ranking survey 2017 consecutively.

About the Department:
The Department of Electronics & Communication Engineering was started in the year 1980.

About the Programme:
This Student Development Program "Building Smart Things by Leveraging IoT Technology" is being organized for five days to provide complete hands on Raspberry_pi and Node MCU microcontroller, platform for to seek the knowledge in IoT.

Topics to be Covered:

- Introduction about main concepts, components, technologies involved in Internet of Things (IoT).
- The Hardware Aspects of NodeMCU (ESP8266) Embedded Developmental Environment.
- About Various Types of Sensors, Actuators used in DIY Projects and hands on interfacing with NodeMCU and raspberry Pi.
- Basics of Python Scripting.
- The Hardware and Software Aspects of popular micro-computer SOC board Raspberry Pi.
- About Cloud Analytical tools like Blynk Application (Mobile IoT), Math Work's Thing speak Cloud Engine, Google Assistance.
- Web hooks like IFTTT, Adafruit I/O Cloud Services.
- About IoT Protocol: MQTT.
- Communication between Raspberry-Pi, NodeMCU and Cloud Server.

Participation:
Students from any department of various Engineering colleges can attend the workshop.

Registration details:
Fees: 1500/- per Participant
Advance Registration Fees to be paid online while submitting application: Rs.500.
Remaining Rs.1000 Can be paid on-spot during On-spot registration
