The following suggestions are made after elaborate discussion-

1. More importance should be given for introduction of flipped classroom and cooperative learning.

2. It is better to be flexible in 60:40 ratio at present until the infrastructure is Improved (Bandwidth, digital literacy, purchase power to have electronic gadgets among rural students)
3. Ensure strengthening the digital infrastructure.
4. Provide laptop with required software and internet facility to the students by giving them dongles.
5. Awareness of SWAYAM/MOOC to be increased among faculty and students by creating a post of coordinator in each institution.
6. Increase the number of exam centres to facilitate more number of students and faculty to register for the courses SWAYAM which will avoid travelling to long distance centres and make the process economically viable.
7. The faculty should not become obsolete with time by introduction of online classes. Faculty should not loose job.
8. Encourage open source software. Mechanism to be developed for distribution of the required licenced applications to the students and faculty by HEIS.

PUBLIC NOTICE

D.O.No.1-9/2020 (CPP-II)

20th May, 2021

University Grants Commission in its 547th Meeting held on 29.05.2020 discussed the blended mode of teaching. It was decided that HEIs should be allowed to teach up to 40% of syllabus of each course (other than SWAYAM course) through online mode and the remaining 60% syllabus of the concerned courses could be taught in offline mode. Examinations for both 40% online and 60% offline teaching can be conducted offline. This provision may be created over and above up to 40% of online education permissible for SWAYAM courses. Examinations for SWAYAM Courses are essentially conducted in online mode. To prepare a concept note on Blended mode of teaching the UGC constituted an Expert Committee.

The draft concept note prepared by the Committee is attached herewith for comments/suggestion of stakeholders, if any, which may be sent to UGC on policyfeedbackugc@gmail.com on or before 06.06.2021.

12:37:49 From NarayanaMurthy G : Sir, from last one and half a year we are putting lot of efforts by all the possible modes to impart best possible education. Because of govt or eductionalists stand on cancellation of exmination , all our hard efforts gone/go waste and students may not consider online classes seriously. My opinion is to conduct online exams instead of completely avoiding
12:40:38 From Pradeep G S : IT literacy is a most significant barrier for teachers and students. The solid tech support and trainers is needed.
12:42:01 From Navya Shree : I agree sir unnecessary digitalized is not good. Our india has not facilitated for this..
12:44:15 From Dr.Ramesh N D : somewhere no network in rural said. how can use in rural said students ?

staff.

12:57:59 From cudvali somashekar : At present to take these exams students have to go to bigger cities. NES because of so many educational institutes can take the examination centre, then more students can participate.

13:00:07 From Parvathamma K T : ಈ ಸಂದರ್ಭದಲ್ಲಿ ಟೀಚರ್ಸ್ ಪ್ರಯತ್ನ ಆಶಾದಾಯಕವಾಗಿದೆ.ಮುಂದಿನ ದಿನಗಳಲ್ಲಿ ಒಳ್ಳೆ ಪರಿಶ್ರಮ ಸಿಗುವ ಸಾಧ್ಯತೆ ಇದೆ.

13:13:48 From Pradeep G S : IT literacy is a most significant barrier for teachers and students. The solid tech support and trainers is needed.

13:18:35 From Jagadeesh S : BL IS GOOD BUT ABOUT INFRASTRUCTURE

13:19:07 From Cudvalli Srikant : We can take this opportunity to arrange tech training in coming days by also involving industry experts.
