Department of Electronics and Telecommunication Engineering

Report of One Day Visit to Taranga Higher Primary School of deaf children, Shimoga On 20-12-2021

From,

5th Semester
Department of Electronics and Telecommunication
JNN College of engineering
Shimoga- 577204

We visited Taranga higher primary school of deaf children on 20th December 2021. This school provides education from grade 1 to grade 7 for students who are under privileged. This is a non-governmental organisation. It was founded by an ENT surgeon. We conducted a few activities namely art and drawing, brain development games, with the aid of their instructors. The children there are proficient in doing things, under proper guidance.

Students who have learned in this school have also secured good positions in both private and public sectors in their profession. We provided them with a meal and some gifts. We spent time with them and learnt about their academic procedure. The head of this Institute briefed us about the funding. It is purely functioning on donations.

Activities conducted to deaf children:

- Drawing and colouring.
- Games
- Sports
