:About the Institution:

National Education Society (NES) started
in the year 1946 by a group of
philanthropist and freedom fighters. There
are more than 40 educational institutes
running under the umbrella of NES.
Jawaharlal Nehru New College of
Engineering (JNNCE) is a flagship
institute of NES established in the year
1980 and it is one of the prestigious,
institutes in Karnataka. The campus is
spread over 52 acres of land with lush
green surroundings.

It is affiliated to VTU Belgaum and approved
by AICTE, New Delhi and recognized by
Government of Karnataka. College is
accredited by NAAC and all the BE
programmes are accredited by NBA. The
Institute offers 2 UG and 4 PG Programmes
and all departments are recognized as
research centers.

:About the Department:

Department of Chemistry came into
existence in the year 1980 during the
inception of Institute. Department has well
equipped laboratory and a separate research
lab as well as well qualified, experienced and
dedicated staff involved in teaching and
research. The department is recognized as
research Centre by VTU and six students are
working in the field of Corrosion inhibition,
electroplating, nano composite coating, Bio
energy conversion, coordination Chemistry,
effluent treatment etc., Department has
published more than 60 research papers in
various International Journals and presented
more than 40 research papers in various
National / International conferences.
Department of Chemistry is involved in
consultancy work with City Municipal
Corporation, water quality management and
also involved in conducting extension
activities like, workshop, webinars and
conferences.

:About the Webinar:

About NPTEL -
The National Programme on Technology
Enhanced Learning (NPTEL) was
initiated by seven Indian Institutes of
Technology (Bombay, Delhi, Kanpur,
Kharagpur, Madras, Guwahati and
Roorkee) along with the Indian Institute
of Science, Bangalore in 2003. Five core
disciplines were identified, namely, civil
engineering, computer science and
engineering, electrical engineering,
electronics and communication
engineering and mechanical engineering
and 235 courses in web/video format
were developed in this phase. The main
goal of NPTEL Phase II (2009-14) was
to build on the engineering and core
science courses launched previously in
NPTEL Phase I. An additional 600 web
and video courses were created in all
major branches of engineering, physical
sciences at the undergraduate and
postgraduate levels and management
courses at the postgraduate level.
Several improvements such as indexing
of all video and web courses and
keyword search were implemented.

Respected Sir,

Sub: Requisition to conduct online webinar on NPTEL courses -reg.

With respect to subject cited above, we are planning to conduct online webinar on "Awareness programme on NPTEL courses" on 14th September 2021. These NPTEL courses are very helpful for our engineering students for placement activities. With this we request you to kindly give permission to conduct online webinar. Hence we solicit your acceptance in this regard.

Thanking you

Yours sincerely
