It is a great honour to share my view regarding the PEOs of the Department of Management Studies, the statements that describe the expected achievements of graduates in their career, and what the graduates are expected to perform and achieve during the first few years after graduation.

Indeed, the PEOs defined by the Department are indicating a progressive touch where, the graduates with professional skills and ethical outlook may be the assets of the business community and society.

I feel happy to congratulate the department for having ventured to move in the direction of Outcome Based Education. I wish the department all the very best!
