## Other Suggestions

- Emphasize the importance of strong coding skills in multiple programming languages. This will prepare students to tackle a variety of projects and technologies.
- Encourage students to engage in practical, hands-on projects that require the application of theoretical knowledge.
- Students need to go behind books and think brightly, need to be logical and think intellectually.
- Incorporate interactive group discussions and presentation opportunities across various subjects to enhance students' communication skills.
- Encourage students to participate in online coding communities, forums, and open-source projects. This can enhance their problem-solving skills and broaden their exposure.
- We recommend the college to actively instill and promote the significance of lifelong learning among its students. Encourage them to engage in continuous self-improvement by participating in online courses, attending webinars.
- Strengthen students' foundational knowledge by encouraging them to actively engage with core subjects through practical assignments and problem-solving exercises.
- Domain knowledge of the branches and work ethics of the organization

- Introduce regular communication workshops or seminars to help students develop effective verbal and written communication skills.
- Organize regular workshops, seminars, and guest lectures by industry professionals. These events offer insights into real-world challenges and provide a platform for networking.
- The college could provide more opportunities for students to gain hands-on experience with software development.
- Facilitate interactions between current students and successful alumni who have pursued careers in the software industry. Alumni can provide valuable advice and guidance.
- Emphasize the importance of building a strong technical foundation. In-depth understanding of programming languages, data structures, and algorithms will equip students to tackle complex challenges.
- Introduce students to emerging technologies such as big data analytics, machine learning, and artificial intelligence.

Shivamogga

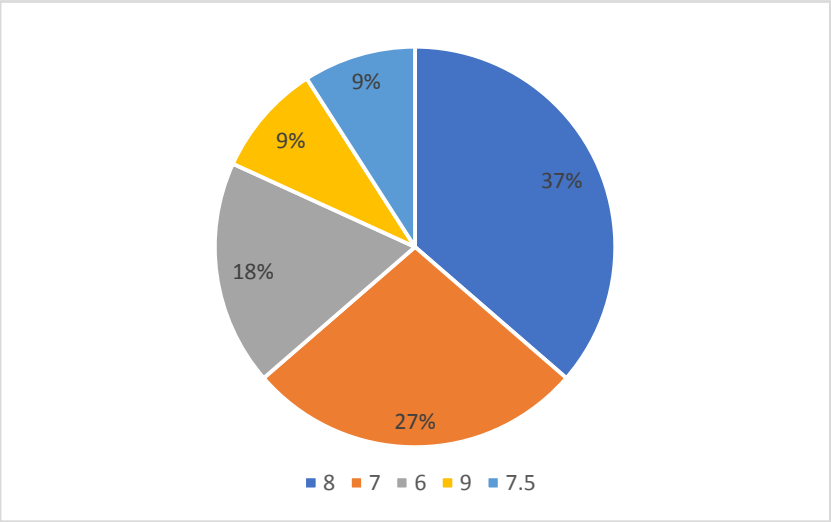
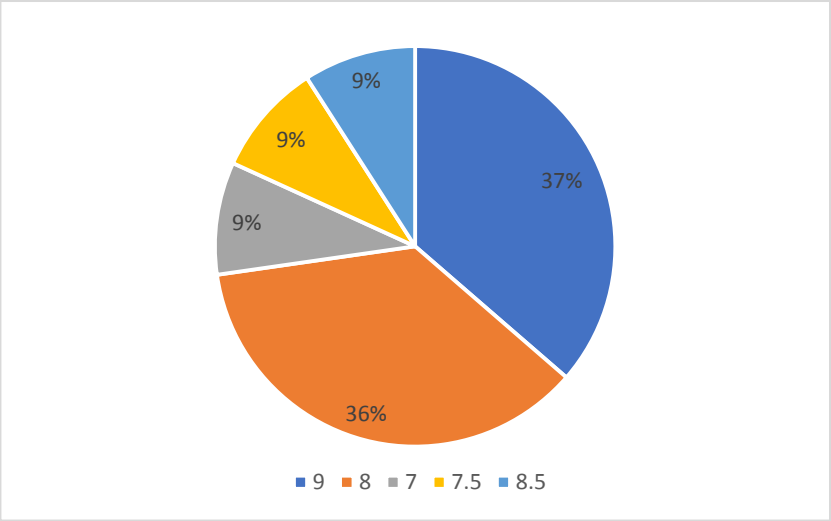
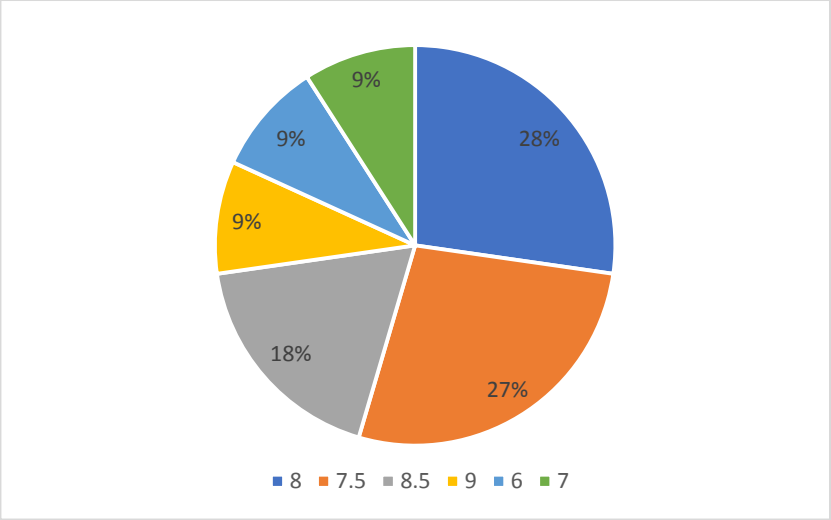
6. **Students' Communication skills were up to mark.**



7. **Students were professionally dressed.**



8. **Overall preparedness of the students**



Principal
Jawaharlal Nehru New
College of Engineering (JNNCE)
Shivamogga

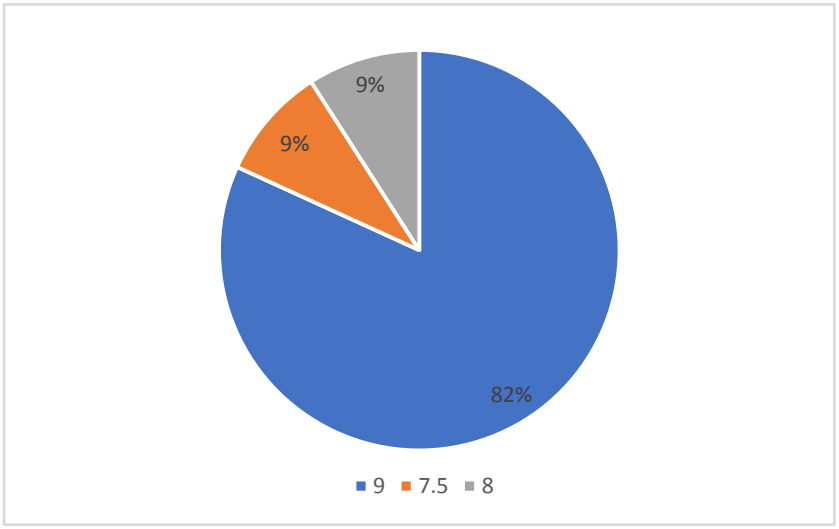
**9. Overall opinion about college.**



Other Suggestions:

- More knowledge is expected about programming knowledge.
- Awareness about latest technology is expected.
- Technical skills need to improve. Students need to brush upon the subject they have studied.
- Resume preparation need to be improved.
- Overall, it is found that students and the faculty are being enhance the learning. However, emphasis may be given on communication skills.
- Students & faculty are keen to upskill themselves in top-niche technologies. Students have to focus on resume preparation & Technical Skills
- Basic Technology knowledge need to be improved.
- Communication needs to be improved.
- There is a need to improve the communication skills and recent advancement.
- Need to improve communication Skill and Updating on the latest domain technology.
- Students have to improve their communication skills & Technical Knowledge
- Communication skill of students needs to be addressed more.
